and tablet and capsule identification guide

**Why you sell more Philishave
than any other kind of electric shaver.**

The product is right

The Philishave has been a best seller for 22 years. There are now seven different models in the range, catering for every need. And they all have the unique Philips combination - rotary action and floating heads.

The price is right

The Philishave range starts with the cordless 90 Super - incredible value for only £57.8. And it goes up through the top-selling Philishave 3 De Luxe at £12.55 - to the luxurious Philishave 3 Rechargeable 90 Super at £19.36.

So however much (or little) your customers want to spend on a shaver, you can always produce a Philishave to fit the bill.

You get big support

As a Philishave dealer you know from experience you can count on heavy advertising support from Philips - all year round. This makes sure of a big demand for Philishave models week in, week out. It's this advertising support, combined with your own efforts and the excellence of the shavers themselves, that makes Philishave the best-selling electric shaver range.

PHILIPS
We want you to have the best.
